FORTSCHRITTE DER PHYSIK

HERAUSGEGEBEN IM AUFTRAGE DER PHYSIKALISCHEN GESELLSCHAFT
DER DEUTSCHEN DEMOKRATISCHEN REPUBLIK
VON F. KASCHLUHN, A. LÖSCHE, R. RITSCHL UMD R. RONPE

23. BAND 1975

AKADEMIE-VERLAG · BERLIN

Inhalt des 23. Bandes

Heft 1

Schönfelder, V., Die diffuse kosmische Gammastrahlung 1

Heft 2

Jegerlehner, F., Soft Parametrization of Renormalized Field Theory and Kadanoff-Scaling . 71
Mutze, U., Unified Free Quantum Fields for Massive and for Massless Particles 113

Heft 3

Rott, L. A., and V. S. Vikhrenko, Statistical Method of Conditional Distributions 133
Tchrakian, D. H., Construction of Covariant Bases for Two-Particle Reactions 165

Heft 4

Zovko, N., Hadron Electromagnetic Structure and Heavy Vector Mesons. 185
Hamilton, J., Electromagnetic Corrections to Hadron Scattering 211

Heft 5

Fridman, A., The Deuteron as Target in High Energy Reactions 243

Heft 6

Yunovich, A. E., Strahlende Rekombination und optische Eigenschaften von Galliumphosphid 317

Heft 7

Dumbrajs, O., and Staszel, M., Phenomenological Dispersion Theory of pp, $\bar{p}p$ Forward Scattering 399
Rühl, W., and B. C. Yunn, Superfields as Respresentations 431
Rühl, W., and B. C. Yunn, Superfields Equations 451

Heft 8

RANFT, J., Correlations in Multiparticle Production 467

Heft 9

KUHN, D., Comparison of K⁻p Topological Cross Sections at 32 and 32,8 GeV/c with Lower Energy Data 541
LILAND, A., Analytic Evaluation of Pion, Kaon and Muon Distributions in the Atmosphere . . . 571

Heft 10

DRECHSLER, W., Wave Equation on a de Sitter Fiber Bundle 607
ACTOR, A., On the Decay Analysis of Electroproduced Higher-Spin Hadrons 649

Heft 11/12

KÖRNER, J., $\Delta I = 1/2$ Rule and Fierz-, $SU(3)$- and Colour $SU(3)$-Crossing Eigenvector of the Current-Current Quark Interaction 661
DOSCH, H. G., and V. F. MÜLLER, Renormalization of Quantum Electrodynamics in an Arbitrarily Strong Time Independent External Fields 691
CHATTERJEE, L., B. K. BANDYOPADHYAY, I. K. DAFTARI, and T. ROY, A Comprehensive Study on Muon Energy Losses in the Energy 705
